LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Ozark Telephone Company (“the Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Missouri Public Service Commission (“Missouri PSC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Missouri PSC. The Company consistently meets or exceeds those standards and provides reports to the Missouri PSC, in accordance with the Missouri PSC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require the Company to publicly disclose information regarding its network management practices, performance, and the commercial terms of its broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011).

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Ozark Telephone Company (“the Company”) is able to function in emergency situations for both voice and broadband service. The Company has permanently mounted standby generators at the main switching office of each wire center with capacity to provide emergency AC service in the event of a power outage. In addition, the Company has several portable generators to provide AC service at digital line concentrator sites within each wire center’s exchange area to ensure functionality when commercial power is not available at these locations. The network is capable of managing traffic spikes resulting from emergency situations.

Toll service(s) are provided over fiber optic facilities which are arranged to ring protect should a fiber breakage or a hardware failure occur. In addition to the toll service ring facilities, remote offices are protected with fiber ring facilities for the host/remote office links. Although the Company’s ability to reroute traffic around damaged facilities is not absolute and may be limited in certain circumstances, there is a restoration plan in place for expeditious recovery of service, including splicing of damaged facilities when warranted.

LINE 920 – TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION

The service area of Ozark Telephone Company (“the Company”) is partially located within the Tribal land of the Seneca-Cayuga Tribe of Oklahoma. The Company sent a letter on August 31, 2016 “return receipt requested” to the Seneca-Cayuga Tribe of Oklahoma. The letter was addressed to the contact listed in the National Congress of American Indians Tribal directory. The Company’s letter expressed interest in scheduling a meeting with Tribal representatives to engage in discussion on the issues specified in Section 54.313(a)(9) of the FCC’s rules, or any other concerns the Tribe wished to discuss. By the end of 2016, the Company had not been contacted by any representative of the Tribal government.

A copy of the letter sent to the Seneca-Cayuga Tribe of Oklahoma and the return receipt are attached.

Dear Chief Fisher,

Ozark Telephone Company ("Ozark") is a communications provider and eligible telecommunications carrier (ETC) in the Seneca exchange, which is partially located within the Tribal lands of the Seneca-Cayuga Tribe of Oklahoma. The FCC's November 18, 2011 Transformation Order requires ETCs to annually engage Tribal governments to discuss, at a minimum, the following issues:

- a needs assessment and deployment planning with a focus on Tribal community institutions;

- marketing services in a culturally sensitive manner;
- rights of way processes;
- land use permitting requirements;
- facilities siting rules;
- environmental review processes;
- cultural preservation review processes; and,
- Tribal business and licensing requirements.

Ozark would like to schedule a meeting with Tribal representatives to discuss the issues above and any other concerns you may have regarding the telecommunications services being provided by Ozark Telephone Company. Please provide a list of potential dates and times when the Tribal representatives would be available to meet. My business phone number is (417) 776-2247, and my email is jaybird61@netins.net.

Thank you for your prompt attention to this matter.

Sincerely,

The Wireline Competition Bureau's 2017 reasonable comparability benchmark for voice services is \$49.51, which includes the federal subscriber line charge ("SLC").¹

Arkansas residential customers of the Company who qualify for the Lifeline Program receive a federal discount of \$9.25.

In the Company’s Arkansas exchanges, the Lifeline single-line residential rate, including the federal subscriber line charge (“SLC”), is \$5.75 (\$15.00 standard rate - \$9.25 federal discount). This rate applies to the following exchange: Southwest City

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer’s choosing. Customers may elect to subscribe to toll blocking at no charge.

The Company does not disconnect the service of Lifeline subscribers for the non-payment of toll charges. However, the Company reserves the right to implement toll blocking, at no charge, if the customer incurs a significant balance of unpaid toll bills.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

The Company provides additional information regarding the Lifeline Program at <http://sgo.cravenproductions.com/services/phone/lifeline/>.
